THE ART MAGAZINE FOR PROFESSIONAL ARTISTS AND ART ENTHUSIASTS

Important information about downloading PDFs to Apple devices

When downloading to an Apple device, the PDF will open in a web browser (like Safari) or usePreview. You will be able to read the file, **but it will not automatically be saved to your device**

STEP 1: Once the file has opened, tap the screen – this will prompt you save the file using an app (like iBooks, Adobe Reader, Goodreader, Kindle etc).

STEP 2: If you do not see the 'Open in iBooks' prompt then please select the 'Share' button (the square with an arrow pointing upward). When you tap the icon, a list of options will appear. Select 'Open In' and then select 'Copy to iBooks' or another reader app.
